## 4. Notes

(1) Changes in significant subsidiaries during the period

(changes in specified subsidiaries resulting in the change in scope of consolidation): None

New: – (Company name: )

Excluded: - (Company name: )

- (2) Adoption of accounting treatment specific to the preparation of quarterly consolidated financial statements: None
- (3) Changes in accounting policies, changes in accounting estimates and restatement
  - (i) Changes in accounting policies due to revisions to accounting standards and other regulations: None
  - (ii) Changes in accounting policies other than (i) above: None
  - (iii) Changes in accounting estimates: None
  - (iv) Restatement: None
- (4) Number of issued shares (common shares)
  - (i) Total number of issued shares at the end of the period (including treasury shares)

As of September 30, 2022	271,056,029 Shares
As of March 31, 2022	271,056,029 Shares

(ii) Number of treasury shares at the end of the period

As of September 30, 2022	23,364,758 Shares
As of March 31, 2022	23,428,544 Shares

(iii) Average number of shares outstanding during the period (cumulative from the beginning of the fiscal year)

Six months ended September 30, 2022	247,667,683 Shares
Six months ended September 30, 2021	247,623,676 Shares

(Note)The Company has introduced a stock compensation plan using a Trust for Directors and executive officers, and its shares held by the Trust are included in the number of treasury shares.

## 1. Qualitative Information on Quarterly Financial Results

#### (1) Explanation of Operating Results

During the six months ended September 30, 2022, although the Japanese economy faced various issues including responses to COVID-19, the surge in global commodity prices following Russia's incursion into Ukraine in February this year, and the securing of a stable supply of energy, there were signs of recovery mainly in personal consumption and capital investment thanks in part to the effect of various policies implemented by the Japanese Government.

In such an economic environment, the production volume in the paperboard industry was higher than in the previous fiscal year, supported by the signs of economic recovery.

The production volume in the corrugated packaging industry was on par with the previous fiscal year due to favorable sales of products for foods, e-commerce and parcel delivery which offset the stagnant sales for industrial products and electrical appliances and machinery.

The production volume in the folding carton industry was higher than in the previous fiscal year due to strong sales of processed foods for individuals.

The production volume in the flexible packaging industry was higher than in the previous fiscal year supported by robust demand mainly for foods, despite a movement to reduce plastics.

The production volume in the heavy duty packaging industry was lower than in the previous fiscal year due to a decline in petrochemical-related demand affected by the slowdown in the Chinese economy, among other factors.

Under such circumstances, the Rengo Group worked diligently to expand business and increase earning capacity with strengthened marketing capabilities as well as active capital investment and mergers and acquisitions as "General Packaging Industry (GPI) Rengo," offering innovative solutions that meet all the packaging needs of various industries.

In addition, in response to the worldwide surge in raw material and fuel prices and other issues, the Rengo Group has been revising the prices of various products including containerboard, paperboard, corrugated board, cellophane, polypropylene film, and flexible packaging since the previous year. However, as it has become extremely difficult to absorb the further rising costs caused by even higher resource prices against the backdrop of the Russia-Ukraine situation and other matters, as well as by the depreciation of the yen, the Rengo Group is continuing to push forward with efforts to establish a price system that enables reproduction.

In June of this year, the Rengo Group made equity participation in FCL Co., Ltd., an industrial machinery manufacturer in Nagakute City, Aichi, to improve the capability to develop facilities that support the Group's production technology. In July, the Rengo Group established a new plant for Viscopearl<sup>®</sup>, biodegradable microsized spherical cellulose beads which are made from wood pulp within the Kanazu Mill in Awara City, Fukui, to contribute to solving the problem of ocean pollution caused by plastic waste. In September, the Rengo Group made Marufuku Co., Ltd. in Hakusan City, Ishikawa a subsidiary to strengthen our folding cartons and flexible packaging businesses.

Overseas, in May of this year, the Rengo Group established Rengo Europe GmbH in Germany to further focus on business development in Europe. In June, the Rengo Group made THIMM Packaging Systems GmbH & Co.KG, a German heavy-duty packaging materials manufacturer, a subsidiary (new company name: TRICOR Packaging Systems GmbH) through Rengo Europe GmbH and TRICOR Packaging & Logistics AG in Germany. Meanwhile, Tri-Wall Limited in Hong Kong made a U.K. corrugated board manufacturer a subsidiary in August and acquired a business of a U.S. heavy-duty packaging materials manufacturer in September. As exemplified by the foregoing, the Rengo Group further enhanced its heavy-duty packaging materials business which is promoting expansion on a global scale.

Environmental initiatives as part of ESG management are top priority issues for the Rengo Group which advocates "Less is more." as its key phrase. In October of this year, the Rengo Group commenced the operation of a biomass boiler for power generation at Tonegawa Division in Bando City, Ibaraki, as the second boiler following one at Yashio Mill in Yashio City, Saitama, to achieve the CO<sub>2</sub> emission reduction target "46%

reduction compared to FY2013" by FY2030.

As a result, for the six months ended September 30, 2022, net sales were  $\pm$ 413,506 million (113.7% year on year), operating profit was  $\pm$ 15,528 million (76.5% year on year), ordinary profit was  $\pm$ 17,849 million (79.3% year on year), and profit attributable to owners of parent was  $\pm$ 12,041 million (63.1% year on year).

An overview of each segment for the six months ended September 30, 2022 is as follows.

#### [Paperboard and Packaging-Related Business]

In the Paperboard and Packaging-Related Business, sales increased due to product price revisions, but profit decreased because of the impact of rise in fuel and recovered paper prices.

As a result, net sales were ¥239,083 million (108.3% year on year) and operating profit was ¥9,053 million (61.5% year on year).

The production volume of main products was as follows.

(Paperboard products)

The paperboard production volume was 1,302 thousand tons (100.9% year on year), supported by an upward trend in the economy.

(Corrugated packaging)

With regard to corrugated packaging, the production volume was 2,205 million square meters (101.1% year on year) in corrugated board, and 1,846 million square meters (102.2% year on year) in corrugated boxes, due to robust sales of products for foods, e-commerce, and parcel delivery.

#### [Flexible Packaging-Related Business]

The Flexible Packaging-Related Business reported higher sales and profit due to product price revisions and an increase in the number of consolidated subsidiaries.

As a result, net sales were ¥56,861 million (123.4% year on year) and operating profit was ¥1,590 million (122.1% year on year).

## [Heavy Duty Packaging-Related Business]

In the Heavy Duty Packaging-Related Business, sales increased due to product price revisions, but profit decreased because of the impact of rise in raw material prices.

As a result, net sales were ¥22,745 million (108.3% year on year) and operating profit was ¥624 million (68.3% year on year).

#### [Overseas Business]

The Overseas Business reported higher sales and profit supported by the increase in the number of consolidated subsidiaries and price revisions promoted in Europe.

As a result, net sales were ¥77,391 million (131.5% year on year) and operating profit was ¥3,526 million (148.5% year on year).

#### [Other Businesses]

Sales from other businesses increased due to price revisions in the nonwoven products business. Profit, however, decreased because of the rise in raw material and fuel prices.

As a result, net sales were  $\pm 17,424$  million (102.6% year on year) and operating profit was  $\pm 686$  million (70.1% year on year).

#### (2) Explanation of Financial Position

Total assets as of September 30, 2022 were ¥1,016,584 million, an increase of ¥82,239 million from the end of the previous fiscal year. The increase was mainly due to increases in notes and accounts receivable - trade; property, plant and equipment; and intangible assets.

Total liabilities amounted to ¥631,199 million, an increase of ¥51,143 million from the end of the previous fiscal year. The increase was mainly due to increases in long- and short-term borrowings and notes and accounts payable - trade.

Net assets were \$385,384 million, an increase of \$31,095 million from the end of the previous fiscal year. This was due to an increase in retained earnings as a result of reporting profit attributable to owners of parent and an increase in foreign currency translation adjustment as a result of exchange rate fluctuation.

As a result, the shareholders' equity ratio stood at 36.6%, on par with the end of the previous fiscal year.

(3) Explanation of Consolidated Financial Forecasts and Other Forward-Looking Information In light of a number of uncertainties at the moment, the consolidated financial forecasts announced on May 13, 2022 have not been revised.

\*3 The segment profit was reconciled with operating profit in the quarterly consolidated statements of income.

#### 2. Information on assets by reportable segment

(Significant increase in assets due to acquisition of subsidiaries)

The segment assets of the "Overseas Business" for the second quarter of the fiscal year under review increased by ¥70,922 million from the end of the previous fiscal year due in part to the acquisition of equity of THIMM Packaging Systems GmbH & Co.KG (new company name: TRICOR Packaging Systems GmbH) and the inclusion of the said company and its subsidiaries in the scope of consolidation during the first quarter.

The amount of segment assets was calculated on a tentative basis because the allocation of the acquisition cost has not been completed.

3. Information on impairment loss of non-current assets or goodwill, etc. by reportable segment

(Significant change in the amount of goodwill)

In the "Overseas Business," the Rengo Group acquired equity of THIMM Packaging Systems GmbH & Co.KG (new company name: TRICOR Packaging Systems GmbH) and included the company and its subsidiaries in the scope of consolidation. This event increased the amount of goodwill by ¥10,133 million for the six months ended September 30, 2022.

The amount of goodwill was calculated on a tentative basis because the allocation of the acquisition cost has not been completed.
